## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 6, 8 and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by Howorth et al., JP 07150933A.

Regarding claims 6, 8 and 16, Howorth teaches a reforming (catalytic converter) system (abstract) comprising a reforming zone comprising catalyst substrate (20); a ceramic mat material coupled to the inlet of the reforming zone (32); and a mixing zone coupled to the mat material (Fig. 6), further teaching mat material comprises a plurality mesh ceramic material [0022], and binder material comprising a sealing agent [0027].

### ***Claim Rejections - 35 USC § 103***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim 10 is rejected under 35 U.S.C. 103(a) as being unpatentable over Howorth et al., JP 07150933A, in view of Edridge, USP 4,161,510.

Art Unit: 1764

Howorth teaches all of the limitations as applied to claim 16 above, but does not explicitly teach the ceramic material having reflective coating. Edridge teaches a ceramic reflective coating may be applied to reforming system parts that are exposed to high temperatures (C2/L13-57) and it would have been obvious to modify Howorth with Edridge for the purpose to provide the mat material of the reforming system with a hard coating and properties of a high degree of inflammability (C2/L13-55).

### ***Response to Arguments***

Applicant's arguments with respect to claims 6, 8, 10 and 16 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***
